Read more on the '[Child Protection Unit' initiative](#).

Child protection committee and centre

Ministry of Interior (MoI) established the Higher Committee for Child Protection in 2009 and the [MoI's Child Protection Centre](#) in 2011 to undertake the role of developing, implementing and customising the initiatives and processes aiming at providing safety, security and protection for all children living in the UAE or even those coming as visitors. The committee plays a key role in maintaining the safety of children, because achieving justice and protection for children is a shared responsibility.

PROTECTIVE MEASURES – WHOLE SCHOOL RESPONSIBILITY :

Our Own English High School, Fujairah has clear lines of accountability in relation to safeguarding and protecting children and young people. All staff are responsible to ensure the same by adhering to the procedures and protocols mentions in this policy.

This means

- SLT, Operations Manager / and entire staff is accountable and responsible for ensuring that satisfactory arrangements are in place to protect the children.
- The school leadership team is responsible for ensuring that the school follows safe recruitment processes
- Vetting procedures to prevent unsuitable person from having contact with children.

- To report any concerns, they may have about the protection of children, in accordance with this policy.
- Ensure that personal information is kept confidential.
- Reproduce images of children only after getting the written permission of their parents/guardians

PROFESSIONAL CONFIDENTIALITY

Confidentiality needs to be discussed and fully understood by all those working with children, particularly in the context of child protection. The only purpose of confidentiality in this respect is to benefit the child. A member of staff must never guarantee confidentiality to a pupil nor should they agree with a pupil to keep a secret, where there is a child protection concern. This must be reported to the Designated Child Protection Officer and may require further investigation by appropriate authorities.

Staff will be informed of relevant information in respect of individual cases regarding child protection on a "need to know basis" only. Any information shared with a member of staff in this way must be held confidentially to themselves. In the event that a child discloses an incident of abuse to a staff member, the concerned staff member is to ensure the child of appropriate intervention without guaranteeing confidentiality.

RECORDS AND MONITORING

Well-kept records are essential to good child protection practice. Our school is clear about the need to record any concern held about a child or children within our school.

Any member of staff receiving a disclosure of abuse or noticing signs or indicators of abuse, must make an accurate record as soon as possible noting what was said or seen, putting the event in context, and giving the date, time and location. All records will be dated and signed and will include the action taken.

These file notes are kept in a confidential file, which is separate to other files, in the same way notes must be kept of any pupil who is being monitored for child protection reasons.

All records are filed with the counsellor and the CPO.

SUPPORTIVE MEASURES

Our school recognizes that children who are abused or who witness violence may find it difficult to develop a sense of self-worth or view the world as a positive place.

This school may be the only stable, secure and predictable element in the lives of children at risk. Nevertheless, while at school their behaviour may still be challenging and defiant or they may be withdrawn.

This school will endeavor to support pupils through:

- The curriculum to encourage self-esteem and self-motivation.
- Appropriate counselling session to the concerned students.
- The school ethos which promotes a positive, supportive and secure environment and which gives all pupils and adults a sense of being respected and valued.

- A commitment to develop productive, supportive relationships with parents, whenever it is in the child's best interest to do so.
- The development and support of a responsive and knowledgeable staff group trained to respond appropriately in child protection situations.
- Recognition that statistically children with behavioural difficulties and disabilities are most vulnerable to abuse so staff who work in any capacity with children with profound and multiple disabilities, sensory impairment and / or emotional and behavioural problems will need to be particularly sensitive to signs of abuse.
- Recognition that in a home environment where there is domestic violence, drug or alcohol abuse, children may also be vulnerable and in need of support or protection.
